Hellow Community, I am here to share some of the benefits of our new core systems that we have developed with TACO. The core systems you will see here below provide amazing new benefits for you as a student, while helping us organize and simplify many of the workflow process in our core systems. Some of the benefits you can enjoy now are: Reduction of the amount of PDFs we have at any given time, which could potentially lead to us re-searching and retrieving our old PDFs. More efficient system, since you no longer need to search for individual paper, and we are able to search the whole document instead. Improved workflow management, since the amount of steps and processes in the system is now automated to make your life easier. Reduction of administrative burden, since we do most of the tedious process and actions for you. Improved quality of service, since we can guarantee that we deliver only the requested/needed PDF. Less maintenance, since we have designed our core systems in such a way to give you greater control and flexibility. Improved usability, as you do not have to pay attention to get what you need, since you can just click/tap on the right button on our system to retrieve the PDF in a way that does not make you lose your place in the document. On top of the benefits listed above we have put a lot of effort to develop our core systems to be student friendly while ensuring your privacy, so you can enjoy them without any hesitation. TACO plans to work on developing its core systems, and look forward to seeing how you use them. Regards, TACO System Project Team. A: TACO I am sorry. But you have seriously mislead me, when I first downloaded this. I did not believe that you are a university and I would get the course materials for free. In case of using TACO for a part-time course, I would not get the materials for free, and I would use the course materials freely. However, I now realize that I was wrong. You say that the course material is free, but the course material is not free. You want to charge as much money as you can by putting the course materials in TACO. You want to charge students, but you want to ask for money at the same time. That is why you do not give the
